

LION for Reading

Bridging Assessment and Instruction

Complete Literacy Solution

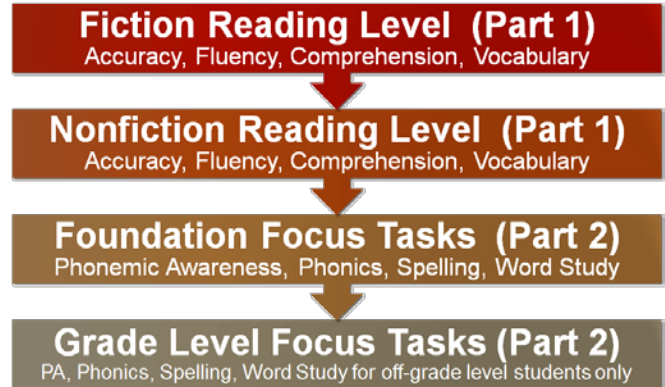

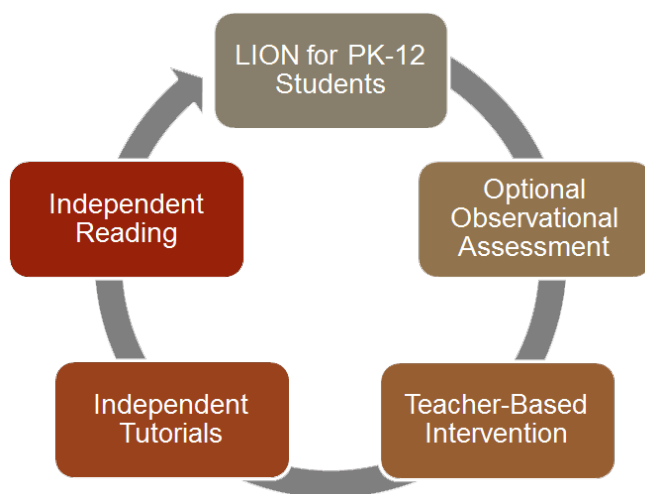

KG – 12 (English)
KG – 6 (Spanish)
Universal Screener
Five Domains of Reading
Dyslexia Screener (KG – 2)
TX Commissioner’s List Approved
Adaptive and Individualized

Key Concepts

Reading Fluency
Comprehension
Vocabulary
Foundational Reading Skills

Scope

Benchmark – 3 times a year
Progress Monitoring – every 3 weeks
Customized to District Needs

Reading Levels

Independent and Instructional Reading Levels
Fiction and Nonfiction Reading Levels
Alignment to AR, Lexile, F&P, DRA2, A-Z
Track Progress Year-to-Year

Easy Administration

Group Administered
Web-Based, Lab Setting
20-45 Minutes

Targeted, Actionable Results

Immediate Scoring, Grouping, and Reporting
Teacher-Based Instructional Resources
Student- Based Instructional Resources

The LION Difference

Optional One-on-One Reading Passages
TEKS-Based Results
Graphic Organizer Library
Correlations and Comparisons to STAAR
Comparisons to District Assessments and Benchmarks
Alignment to TELPAS

LION for Reading

Bridging Assessment and Instruction

5 Domains of Reading

LION/LEON assesses all of the five domains of reading – phonological awareness, phonics, spelling, accuracy, fluency, comprehension, and vocabulary – with an emphasis on vocabulary and word study.

State Standards

Developed to address student expectations found in TEKS and Common Core, LION and LEON provide practical and familiar feedback and resources to assist teachers in meeting the curriculum standards set forth by their state and targeted on high-stakes assessments.

Guided Reading

LION and LEON passages are correlated to Lexile, DRA2, Fountas & Pinnell, AR, and ATOS to help teachers and librarians find the most appropriate books for each student. LION/LEON reports include equivalent titles to engage parents and students in finding “just-right” texts and encourage reading.

Universal Screener

Students are quickly identified as ABOVE, AT, BUBBLE, and BELOW level for both fiction and nonfiction texts. Foundational skills at the student's reading level create customized profiles for individualized instruction.

Fiction and Nonfiction

Students are assessed separately in fiction and nonfiction texts to ensure teachers know their students' reading levels across genres.

Response to Intervention

Students are automatically assigned an RTI tier. LION is a complete RTI solution with a benchmark, universal screener, progress monitoring, and intervention resources.

Teacher Tutorials

Teachers can access aligned activities and lessons from the Florida Center for Reading Research, Read-Write-Think, equivalent titles, and cataloged library of graphic organizers.

Student Tutorials

Students can access teacher-tested, research-based tutorial activities based on their most recent LION results. Teachers select the most appropriate activities based on LION recommendations.

Fluency Quizzes

Optional, one-on-one leveled reading activity with students. These running record passages assess

| | |
|------------------|--------------|
| Accuracy | Reading Rate |
| Comprehension | Vocabulary |
| Written Response | Fluency |

and include an available paired passage in the corresponding genre.
